### **MAWSS Announces October Hydrant Flushing Schedule**

Mobile Area Water & Sewer System (MAWSS) will be flushing fire hydrants throughout the Mobile area during the month of October. Flushing is a maintenance activity that involves opening the hydrants and allowing water to flow freely for a short period of time. Flushing helps maintain water quality by cleaning out sediment and other particulates that accumulate normally in the water mains. As a result of the flushing, water may appear milky or have some temporary discoloration. This discoloration does not affect the safety of the water. If discoloration or sediment is evident, customers may want to avoid doing laundry for that day. Allow water to run a few minutes to clear before using.

Locations scheduled to be flushed in October include neighborhoods near Wolfe Ridge Rd., Springhill Ave., Old Shell Rd., Tuthill Dr., McGregor Ave., Bit & Spur Rd., Airport Blvd., Michael Blvd., Panorama Blvd., Dawes and Cottage Hill Rd., Saybrook and Hamilton Creek.

Signs announcing the week and day of flushing will be posted in neighborhoods affected. A monthly schedule of flushing sites and map can be found at [www.mawss.com](http://www.mawss.com) under “What’s New at MAWSS” or call 694-3165 for more information.
