**MAWSS Recognized by State Environmental Association**

Mobile Area Water & Sewer System (MAWSS) was recognized with Best Operated Plant Awards by Alabama's Water and Pollution Control Association (AWPCA) during its annual banquet and educational conference held in Huntsville, August 5.

MAWSS' H.E. Myers Water Treatment Plant and Distribution System were recognized as best in their categories based on size and amount of water treated each day. MAWSS' E.M. Stickney Water Treatment Plant received an Award of Excellence. The C.C. Williams Wastewater Treatment Plant won a Certificate of Recognition. The Wright Smith Jr. Wastewater Treatment Plant was required to sit out this year's competition after winning the award three consecutive years in row.

The AWPCA plant awards are based on an application and site visit by an AWPCA committee. Facilities are judged in a variety of categories including performance, water quality, record keeping, appearance and safety.
