MAWSS Announces September Hydrant Flushing Schedule

Mobile Area Water & Sewer System (MAWSS) will be flushing fire hydrants in west Mobile during the month of September. Flushing is a maintenance activity that involves opening the hydrants and allowing water to flow freely for a short period of time. Flushing helps maintain water quality by cleaning out sediment and other particulates that accumulate normally in the water mains. As a result of the flushing, water may appear milky or have some temporary discoloration. Allow water to run a few minutes to clear before using. Avoid doing laundry as staining can occur.

Locations scheduled to be flushed in September include Clark Rd., Creekwood Subdivision, Stonehedge Subdivision, Smithfield Subdivision, Pine Station Subdivision, Ching Dairy Rd., Kings Branch Subdivision, Spy Glass Subdivision, Carlisle Subdivision, Barker Dr. North and Anders Drive.

Signs announcing the week and day of flushing will be posted in neighborhoods affected. A monthly schedule of flushing sites can be found at www.mawss.com under “What’s New at MAWSS” or call 694-3165 for more information.
