MAWSS Using Holiday Break to Complete Road Work

While students enjoy Thanksgiving holidays, contractors for Mobile Area Water & Sewer System (MAWSS) will take advantage of the break to complete a construction project on Old Shell Rd. at N. Sage Ave. Contractors for MAWSS replaced water and sewer lines on Old Shell Rd. and N. Sage Ave. earlier this year but still have some work to complete in the intersection. In addition a point repair to the sewer line is needed at 56 N. Sage Ave. Contractors will then focus on permanent street restoration at the locations of prior sewer repairs on Old Shell Rd. between Sidney Phillips Dr. east to N. Sage Ave.

All local businesses will be accessible during this work which is expected to be complete by Thanksgiving.
