

Mobile Area Water & Sewer System News Advisory (Revised)

June 12, 2012

Contact: Barbara Shaw, Public Affairs Mgr., 694-3113 or bshaw@mawss.com

Editors: This is the same list you received yesterday but with estimated volumes from June 10-11.

Heavy Rains and Flooding Cause Overflows

Mobile Area Water and Sewer System (MAWSS) experienced additional sanitary sewer overflows as a result of unprecedented rainfall in the Mobile area that began June 7. MAWSS measured as much as 14.4 inches of rain at the Woodbridge Lift Station since the beginning of the rain event. Rain intensity reached 3.4 inches in one hour at the Halls Mill Lift Station. With grounds highly saturated, creek water surfaces still elevated and the storm water system maximized, more overflows may occur with additional rainfall. Listed below are the locations and receiving waters of the overflows that occurred on June 10 and 11. Some overflows stopped and then started again and are indicated by (2x).

Location	Receiving Water	Est. Gals.
564 Bizzell Ave. (2x)	Three Mile Creek	47,125
Bizzell Ave./Pecan St. (2x)	Three Mile Creek	49,050
