**Wastewater Overflow
3669 Whitestone Dr.**

Mobile Area Water & Sewer System (MAWSS) responded to a wastewater overflow on April 10, 2024 at 3669 Whitestone Dr. Approximately 425 gallons of wastewater overflowed as a result of a break on a low-pressure force main. All of the wastewater was contained and did not reach state waters. MAWSS crews repaired the force main and have taken the necessary steps to prevent future overflows at this location.
