PERMIT # _____

“**Commercial Water Only Service**” is additional services (water meters) to reduce sewer charges where the customer can clearly demonstrate water usage do not enter the sanitary sewer system. If there is any possibility of water entering into the sewer system; a minimum sewer charge may be applied to the monthly account in addition to the water charge or the service may be revoked.

Examples: Concrete Manufacturing, Cooling Towers, Chilling Systems, etc...

A **back-flow preventer** is required to protect the public water supply. The Board furnishes this device with the installation of 5/8” and 1” additional service commercial meters. On larger meters, the requestor shall furnish and install a **back-flow preventer** meeting or exceeding **A.S.S.E. #1015 or A.W.W.A. C510-89**. Failure to install this device will initiate an interruption of service.

NOTE: The Board does not guarantee that these type meters can be installed at all locations requested. If conditions in the field create an additional expense, the customer will be notified and given the option to pay the additional expense or terminate the project with all prepaid fees being refunded.

The below costs include the standard irrigation meter with back-flow device installations only.
