

Lead and Copper Testing Participation

If you have received a letter regarding Lead and Copper testing, please contact Mobile Area Water & Sewer System (MAWSS) when your container is ready. Your participation is appreciated, as this is required regulatory testing for the water system.

If you have not received a letter, but your home was built between 1983-1988 and you would like to participate, please contact us at water.quality@mawss.com or call the main office at (251) 694-3100.
